1. OVERVIEW

Orbit

At Orbit, as the parent company for cutting-edge software solutions, we orbit the latest technology, pioneering high-quality software products that set new industry standards. Our commitment is unwavering: delivering exceptional software experiences customized to our clients' needs. We adhere to the highest quality standards, ensuring our software aligns perfectly with our clients' expectations, including our flagship product, Stock Pulse.
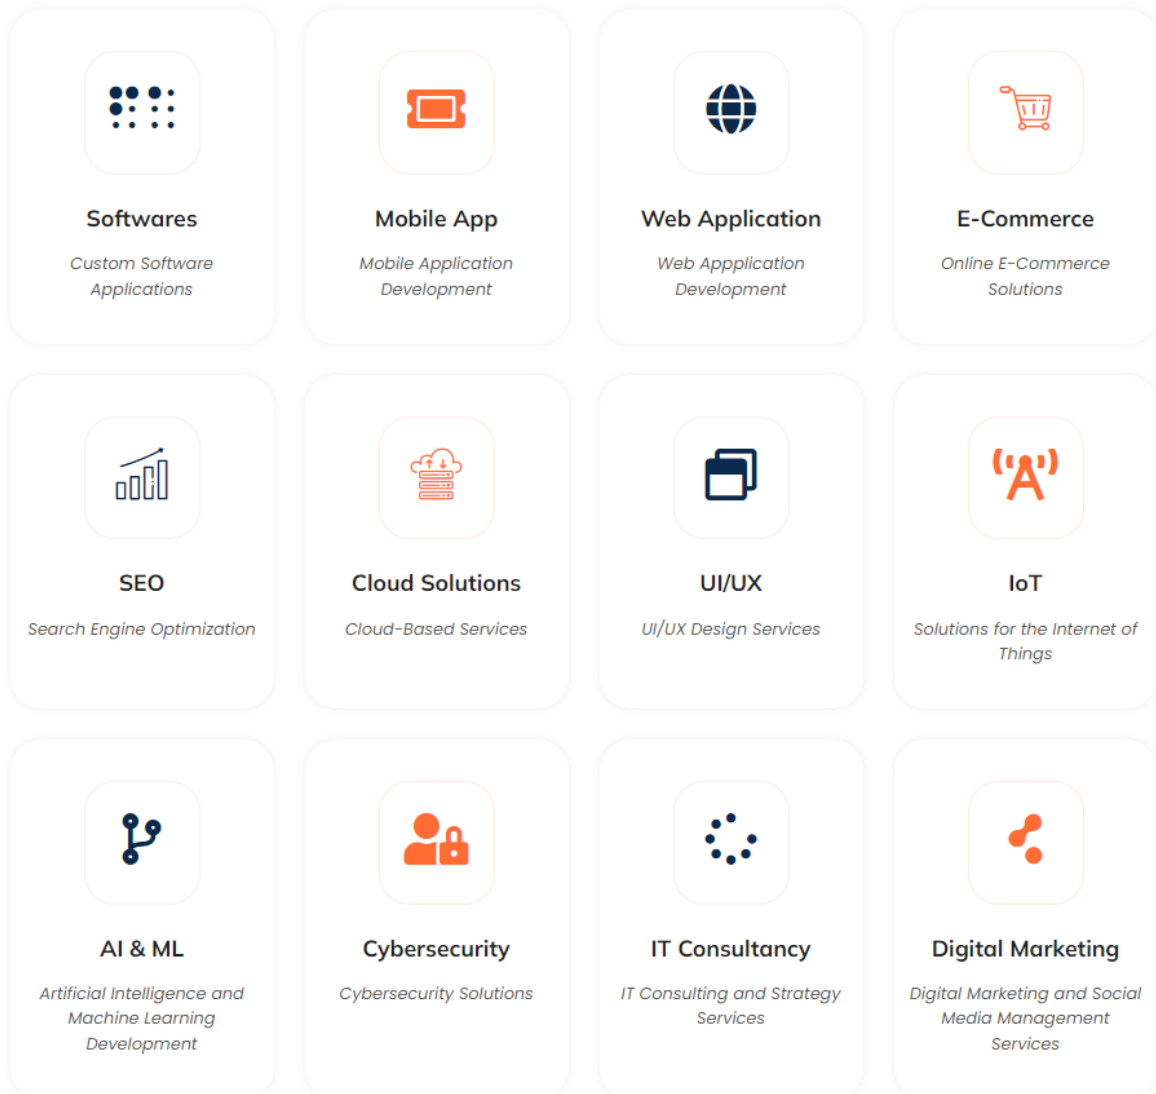

Our Approach

We believe people are key to crafting top-notch software. Understanding each customer's needs guides us. We carefully pick the best tech, creating affordable, custom solutions.

Our Vision

We are a young, dynamic team impassioned by the potential of technology to transform the world. Driven by an unyielding desire to create products that revolutionize the customer experience across various industries, we aim to be pioneers in technological innovation.

2. SCOPE OF THE SOFTWARE

Stock Pulse - Your Ultimate Business Companion

Experience seamless stock management coupled with Point of Sale (POS), accounting, and billing functionalities for single or multi-store businesses.

## Powered by Leading Technologies

Vue 3 for a dynamic frontend
Laravel 8 for robust API development
Enhanced by Ant Vue 3.x for an exquisite interface

Key Features

A. Multi-Store Magic

Effortlessly manage multiple stores with unique brand identities, categories, and product values under one intuitive system.

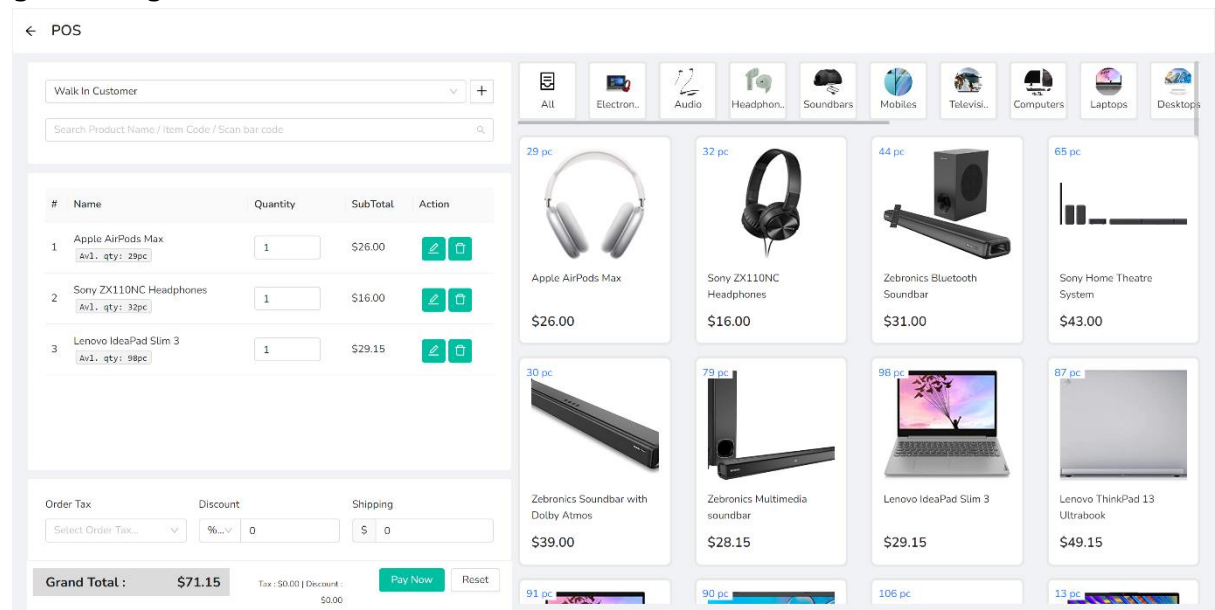

E. Seamless Sales & Tracking

Easily create, track, and manage purchases, sales, returns, and business progress with comprehensive reporting.

F. Swift POS Transactions

Accelerate sales with a robust Point-of-Sale (POS) interface, effortlessly generating invoices for smooth transactions.

G. Expense Management Simplified

Streamline expense tracking by effortlessly categorizing and managing your business expenditures.

H. Efficient Payment Handling

Effortlessly handle cash and online payments, tracking transactions with suppliers or customers in real-time.

I. Tailored Settings & Translations

Customize settings, currencies, languages, and more to suit your unique business needs and enhance user experiences.

J. Insightful Reports & Invoicing

Access detailed reports on payments, stock, customers, and suppliers, alongside hassle-free invoice generation and downloads.

K. Optimized Stock Control

Fine-tune your inventory by adjusting stock levels for any product at any time, optimizing your business operations.

Fast and Secure

Utilizes cutting-edge technology for speed and data security

Vue 3 for an optimized frontend

Laravel 8 for robust backend support

Ant Vue 3.x for an aesthetically pleasing design

Utilizes hashing technology for secure data handling
